

### **Easy Corn Beef & Cabbage**

**Prep: 20 mins**

**Cook: All Day**

**Servings: 6-8**

#### **Ingredients:**

- 1 4-5 lb. corned beef
- 5 or 6 medium potatoes
- 1 medium head of cabbage
- 6 to 7 medium carrots
- 1 large yellow onion

#### **Inspiration:**

Another quick and easy recipe from our very own Snoop Doug here at national Day Calendar. He is a man of multiple talents. He sings, he cooks, he sleeps, and he gets things done around here too.

#### **Instructions:**

Slice potatoes into quarters. Cut carrots into thirds. Onion cut in half and chop each half into eight pieces, and slice/chop cabbage down too.

Pour 1/2 cup of water into crock pot and place corn beef into middle. Surround the beef with the cut up veggies, and be sure to check inside the meat packaging for the seasoning packet. Once found open and pour over everything. Cover crock pot with lid, turn onto medium and head off to work.

That's it. Return at the end of your day and enjoy a wonderfully cooked meal with family!
